

Mid-America Coffee Service

Dear Marty,

I just wanted to drop you a line to tell you how pleased we have been with the NetworkCar GPS system that we officially started with in February. After trying out 6 units to much success, we found that monitoring our employees turned out to be something that we should have done years ago. We have since added 41 additional units and our sister company is currently trying out 5 units to see how it works for them. I am thoroughly convinced that they will discover the benefits of the program and put them on an additional 25 or so vehicles.

I also wanted to let you know that Doug Wilson is just a joy to work with. He is accommodating, professional and maintains a high level of customer service no matter what we need and no matter how often we need it. I think I have told you this before but our installs went smooth only because Doug stood toe to toe with us and walked us through the process with ease.

Thank you again for all of your assistance along the way. We look forward to a long, expense-saving relationship with Amerizon Wireless.

Sincerely,

**Craig Barbarash
Director of Operations
Mid-America Coffee Service**
